Work Flow

Customer value per month

25 hours saved time

34 saved visits in isolation room

129 saved visits in normal room

13 cannula occlusions noticed

107 bottle emptying noticed

34 other remarkable problem

A woman with long blonde hair is lying in a hospital bed, resting with her eyes closed. She is wearing a white hospital gown. The room is dimly lit with a blue tint. To her left is a bedside table with a vase of red flowers, a white cup, and some papers. Above the bed is a medical control panel with various outlets and switches. To her right, an IV stand holds a drip chamber. The overall atmosphere is calm and clinical.

We Care.
